

# Handbook of Research on Managing Intellectual Property in Digital Libraries

Part of the Advances in Library and Information Science Book Series

Adeyinka Tella (University of Ilorin, Nigeria) and Tom Kwanya (The Technical University of Kenya, Kenya)

## Description:

Taking into consideration the variety of information being created, produced, and published, the acquisition and archiving of e-resources by digital libraries is rapidly increasing. As such, managing the rights to these resources is imperative.

The **Handbook of Research on Managing Intellectual Property in Digital Libraries** is a pivotal reference source for the latest scholarly research on strategies in which digital libraries engage in the management of increasing digital intellectual property to protect both the users and the creators of the resources. Featuring coverage on a broad range of topics such as copyright management, open access, and software programs, this book is ideally designed for academicians, researchers, and practitioners seeking material on property rights and e-resources.
