

Advanced Research and Real-World Applications of Industry 5.0

Part of the Advances in Logistics, Operations, and Management Science Book Series

Mahmoud Numan Bakkar (Abu Dhabi Vocational Education and Training Institute, ADVETI, Institute of Applied Technology, IAT, UAE) and Elspeth McKay (Cogniware.com.au, Australia)

Description:

Industry 5.0 is a growing field that has many potential future directions and opportunities for businesses and companies. To ensure society is prepared for this evolving technological world, further study is required on the potential challenges and pitfalls.

Advanced Research and Real-World Applications of Industry 5.0 presents an overview of Industry 5.0 and related advanced research and real-world applications. The book also discusses several real-time issues, problems, and applications with corresponding solutions and suggestions. Covering critical topics such as optimization models, cybersecurity threats, and sustainability, this reference work is ideal for business owners, computer scientists, industry professionals, managers, researchers, scholars, academicians, practitioners, instructors, and students.
