Advanced Methodologies and Technologies in Modern Education Delivery (2 Vols.)

Part of the Advances in Educational Technologies and Instructional Design Book Series

Mehdi Khosrow-Pour, D.B.A. (Information Resources Management Association, USA)

Description:
Recent innovations and new technologies in education have altered the way teachers approach instruction and learning and can provide countless advantages. The pedagogical value of specific technology tools and the cumulative effects of technology exposure on student learning over time are two areas that need to be explored to better determine the improvements needed in the modern classroom.

Advanced Methodologies and Technologies in Modern Education Delivery provides emerging research on educational models in the continually improving classroom. While highlighting the challenges facing modern in-service and pre-service teachers when educating students, readers will learn information on new methods in curriculum development, instructional design, and learning assessments to implement within their classrooms. This book is a vital resource for pre-service and in-service teachers, teacher education professionals, higher education administrative professionals, and researchers interested in new curriculum development.

Topics Covered:
- Course Design
- Curriculum Development
- Education Delivery
- Educational Technologies
- Higher Education
- Instructional Design
- Learning Assessment
- Learning Measurement
- Teacher Education
