Technological Innovations in Knowledge Management and Decision Support

Part of the Advances in Knowledge Acquisition, Transfer, and Management Book Series

Nilanjan Dey (Techno India College of Technology, India)

Description:
Organizations are showing a remarkable interest in realizing knowledge management technologies and processes to adopt knowledge management as part of their overall strategy. However, even with the current advancement in technology, few organizations are entirely capable of developing critical organizational knowledge to achieve improved performance.

Technological Innovations in Knowledge Management and Decision Support is a vital research publication that examines different knowledge management areas for organizational competitiveness, survival, and effectiveness. It also provides cutting-edge research techniques in related optimization methods and other automated techniques in real-world processes. Featuring a broad range of topics such as enterprise resource planning, neural networks, and image segmentation, this book is a critical resource for managers, IT specialists, healthcare and social sciences professionals, engineers, academicians, and researchers seeking research on effective knowledge management systems.

Topics Covered:
- Algorithms
- Biologically-Inspired Metaheuristic Algorithms
- Clinical Decision Support Systems
- Decision Support Systems
- Enterprise Resource Planning
- Image Segmentation
- Neural Networks
- Supply Chain Management
- Wireless Sensor Networks

Hardcover: $195.00
E-Book: $195.00
