

International Journal of Social and Organizational Dynamics in IT (IJSODIT)

ISSN: 2155-6334; EISSN: 2155-6342

Established 2011; Published Semi-Annually

Editor(s)-in-Chief: Michael B. Knight (Florida Southern College, USA)

The International Journal of Social and Organizational Dynamics in IT (IJSODIT) provides an international forum for practitioners and researchers from social sciences, along with information systems professional practitioners to contribute and share developed, useful, and innovative research regarding the impact and future of IT in the workplace. Covering all aspects of social issues impacted by information technology in organizations and inter-organizational structures, IJSODIT presents the conceptualization of specific social issues and their associated constructs. This journal encompasses designs and infrastructures, empirical validation of social models, and case studies illustrating socialization success and failures relating to Information Technology.

Topics Covered:

- Assessment and evaluation
- Assimilation of emerging technologies
- Asynchronous learning networks
- Behavioral issues in IS security
- Buyer-supplier linkages
- Confidentiality agreements
- Contributions from information systems to the development of other academic disciplines
- Cultural customs and digital divides
