

# Handbook of Research on the Impacts, Challenges, and Policy Responses to Overtourism

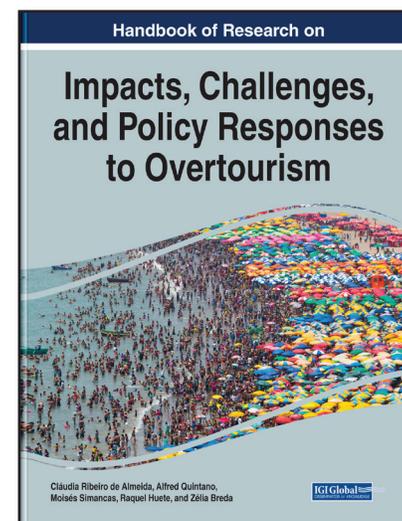

Part of the Advances in Hospitality, Tourism, and the Services Industry Book Series

Cláudia Ribeiro de Almeida (University of Algarve, Portugal), Alfred Quintano (Independent Researcher, Malta), Moisés Simancas (University of La Laguna, Spain), Raquel Huete (University of Alicante, Spain), and Zélia Breda (University of Aveiro, Portugal)

## Description:

In recent years, the increasing number of tourists traveling to specific urban and resort destinations has caused challenges for the effective management of tourism in these areas, with a resulting negative impact on towns, cities, and host communities. Such issues have included placing undue pressure on infrastructure; destruction of the physical, economic, and socio-cultural environment; and affecting the quality of residents' daily lives by impacting their mobility and, in some cases, the price and rent of resident accommodation, goods, and services. To achieve a certain level of balance between the interests of local residents and visitors, new regulatory measures and legislation in high tourism areas must be discussed.

The **Handbook of Research on the Impacts, Challenges, and Policy Responses to Overtourism** is a collection of innovative research on best practices and legislation solutions for the management of tourism destinations suffering from overtourism, tourismophobia, or antitourism movement issues. While highlighting topics including overcrowding, social displacement, and tourism management, this book is ideally designed for local government officials, policymakers, lawmakers, researchers, entrepreneurs, industry professionals, travel agencies, hotels, academicians, and students seeking current innovative empirical research on destination-management practices and application techniques.

**ISBN:** 9781799822240

**Pages:** 447

**Copyright:** 2020

**Release Date:** February, 2020
