

Cloud Computing Applications and Techniques for E-Commerce

Part of the Advances in Systems Analysis, Software Engineering, and High Performance Computing Book Series

Saikat Gochhait (Symbiosis International, India), David Tawei Shou (University of Taipei, Taiwan) and Sabiha Fazalbhoy (Symbiosis Centre for Management Studies, India)

Description:

Many professional fields have been affected by the rapid growth of technology and information. Included in this are the business and management markets as the implementation of e-commerce and cloud computing have caused enterprises to make considerable changes to their practices. With the swift advancement of this technology, professionals need proper research that provides solutions to the various issues that come with data integration and shifting to a technology-driven environment.

Cloud Computing Applications and Techniques for E-Commerce is an essential reference source that discusses the implementation of data and cloud technology within the fields of business and information management. Featuring research on topics such as content delivery networks, virtualization, and software resources, this book is ideally designed for managers, educators, administrators, researchers, computer scientists, business practitioners, economists, information analysts, sociologists, and students seeking coverage on the recent advancements of e-commerce using cloud computing techniques.
