Optimizing Student Engagement in Online Learning Environments

Part of the Advances in Educational Technologies and Instructional Design Book Series
A.V. Senthil Kumar (Hindusthan College of Arts and Science, India)

Description:

Digital classrooms have become a common addition to curriculums in higher education; however, such learning systems are only successful if students are properly motivated to learn.

Optimizing Student Engagement in Online Learning Environments is a critical scholarly resource that examines the importance of motivation in digital classrooms and outlines methods to reengage learners. Featuring coverage on a broad range of topics such as motivational strategies, learning assessment, and student involvement, this book is geared toward academicians, researchers, and students seeking current research on the importance of maintaining ambition among learners in digital classrooms.
