

Handbook of Research on Aestheticization of Violence, Horror, and Power

Part of the Advances in Media, Entertainment, and the Arts Book Series

M. Nur Erdem (Ondokuz Mayıs University, Turkey), Nihal Kocabay-Sener (İstanbul Commerce University, Turkey) and Tuğba Demir (İzmir Kavram Vocational School, Turkey)

Description:

Individuals seek ways to repress the sense of violence within themselves and often resort to medial channels.

The **Handbook of Research on Aestheticization of Violence, Horror, and Power** brings together two different concepts that seem incompatible—aesthetics and violence—and focuses on the basic motives of aestheticizing and presenting violence in different fields and genres, as well as the role of audience reception. Seeking to reveal this togetherness with different methods, research, analyses, and findings in different fields that include media, urban design, art, and mythology, the book covers the aestheticization of fear, power, and violence in such mediums as public relations, digital games, and performance art. This comprehensive reference is an ideal source for researchers, academicians, and students working in the fields of media, culture, art, politics, architecture, aesthetics, history, cultural anthropology, and more.
