

Chatbots in Educational Leadership and Management

Austin Musundire (University of Limpopo, South Africa)

Description:

The dawn of the digital age has brought forth a remarkable transformation in the field of educational leadership and management, catalyzed by the emergence of chatbots. This evolution has been underpinned by a confluence of technological advancements and a growing recognition of the need for efficient administrative solutions. As a result, it has led to their widespread adoption in educational institutions, where they have proven to be instrumental in streamlining administrative tasks, enhancing communication channels, and even offering personalized support to students and staff. Furthermore, the emergence of chatbots in educational leadership has not only revolutionized administrative processes but has also spurred innovation in pedagogical approaches.

Chatbots in Educational Leadership and Management explores the genesis and evolution of Chatbots within the realm of educational leadership and management, tracing their trajectory from humble beginnings to their current role as influential agents of change. The book bridges the gap between academic inquiry and practical implementation, facilitating a holistic exploration of chatbots' transformative potential in the educational leadership and management landscape. Covering topics such as curriculum management, leadership support, and strategic planning, this book is an excellent resource for educators, school administrators, school principals, leaders, professionals, researchers, scholars, academicians, and more.
