

International Journal of Urban Planning and Smart Cities (IJUPSC)

ISSN: 2644-1659; EISSN: 2644-1667

Established 2020; Published Semi-Annually

Editor(s)-in-Chief: Andrea Vesco (LINKS Foundation, Italy) and Nicola Martinelli (Polytechnic University of Bari, Italy)

The International Journal of Urban Planning and Smart Cities (IJUPSC) is a peer-reviewed journal for researchers, academics, practitioners, and emerging scholars to publish their established results and new insights within the field of urban planning and digital transformation of cities. Triple sustainability of urban innovations (i.e. social, economic, and environmental sustainability) is the core of this editorial initiative. Urban Planning addresses the design of cities and urban spaces in a multiple scale vision, and other important challenges of our time such as housing and shrinking cities to create high quality of life and social and economic opportunities for people. Smart City addresses the key technological enablers of the new innovations that meet the needs and preferences of people. Linking and addressing these two topics together provides us the unprecedented opportunity to adopt an interdisciplinary approach to dissemination of novel practices for the sustainable development of our cities. The journal adopts the innovative lens of the complex, digital, and systemic cities, linking theory to practice.

Individual Price:

Print: US \$300

E-Journal: US \$300

Print + E-Journal: US \$365

Institution Price:

Print: US \$860

Online Access: US \$860

Topics Covered:

- Changes in Urban Planning Due to New Technologies and Data Availability
- City and Complexity
- Cybersecurity and Safety in Digital Cities
- Data as Enabler of Urban Smartness
- Digital Transformation of Cities
- Distributed Ledger Technologies and IoT for Smart Cities
- Electronic Identity for All (People and Things) in Digital Cities
- Game and Gamification of urban experiences
- Geographic Information Systems
- Impact Evaluation of Smart City Innovations
- Innovative Applications in Smart City (Mobility, Energy, Water, Waste, Air Quality)
- Limitations and Possibilities of Urban Planning: Policies, Processes, Actions and Plans
- Management of Urban Environment
- New Business and Funding Models for Smart Cities
- Participatory Approaches to Urban Planning and Policy Making
- Smart City Evaluations
- Social Housing, Co-Housing, Co-Living, and Impact on Cities
- Urban Planning, Resilience and Sustainability

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. Interested authors must consult the journal's guidelines for manuscript submissions at www.igi-global.com/publish/resources prior to submission. All article submissions will be forwarded to the Editorial Review Board for double-blind, peer review.

All submissions and inquiries should be directed to the attention of:
Andrea Vesco, IJUPSC@igi-global.com
