

Advances in Cyberology and the Advent of the Next-Gen Information Revolution

Part of the Advances in Human and Social Aspects of Technology Book Series

Mohd Shahid Husain (College of Applied Sciences, University of Technology and Applied Sciences, Oman), Mohammad Faisal (Integral University, Lucknow, India), Halima Sadia (Integral University, Lucknow, India), Tasneem Ahmad (Advanced Computing Research Lab, Integral University, India) and Saurabh Shukla (Data Science Institute (DSI) National University of Ireland Galway (NUIG), Ireland)

Description:

The past decade has witnessed a leap in the cyber revolution around the world. Significant progress has been made across a broad spectrum of terminologies used in the cyber world. Various threats have also emerged due to this cyber revolution that requires far greater security measures than ever before. In order to adapt to this evolution effectively and efficiently, it calls for a better understanding of the ways in which we are ready to embrace this change.

Advances in Cyberology and the Advent of the Next-Gen Information Revolution creates awareness of the information threats that these technologies play on personal, societal, business, and governmental levels. It discusses the development of information and communication technologies (ICT), their connection with the cyber revolution, and the impact that they have on every facet of human life. Covering topics such as cloud computing, deepfake technology, and social networking, this premier reference source is an ideal resource for security professionals, IT managers, administrators, students and educators of higher education, librarians, researchers, and academicians.

ISBN: 9781668481332

Pages: 330

Copyright: 2023

Release Date: June, 2023

Hardcover: \$215.00

Softcover: \$165.00

E-Book: \$215.00

Hardcover + E-Book: \$260.00

Topics Covered:

Agriculture and Food Industry
Cloud Computing
Cyber Threat Mitigation
Cyber Threats and Vulnerabilities
Cybersecurity Laws

Deepfake Technology
Digital Economy
E-Commerce Web Applications
Privacy and Disclosure Behavior
Social Networking

Subject: Social Sciences and Humanities

Classification: Edited Reference

Readership Level: Advanced-Academic Level
(Research Recommended)

Research Suitable for: Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
