

Handbook of Research on Cloud-Based STEM Education for Improved Learning Outcomes

Part of the Advances in Educational Technologies and Instructional Design Book Series

Lee Chao (University of Houston - Victoria, USA)

Description:

As technology advances, so must our education system. Cloud computing serves as an ideal method for e-learning thanks to its flexibility, affordability, and availability. Cloud-based learning is especially dynamic in STEM education, as it can significantly lower the cost of building cumbersome computer labs while fostering engaged learning and collaboration among students.

The **Handbook of Research on Cloud-Based STEM Education for Improved Learning Outcomes** prepares current and future instructors for exciting breakthroughs in STEM education driven by the advancement of cloud technologies. From virtual lab and app construction, to information sharing and course material distribution, this volume touches on a variety of topics related to the benefits and challenges of adopting cloud technologies in the classroom.

Readers:

This book is an invaluable reference for educators, technology professionals, administrators, and education students who wish to become leaders in their fields.
