

# Handbook of Research on Multimedia Forensics and Content Integrity

Part of the Advances in Multimedia and Interactive Technologies Book Series

Sumit Kumar Mahana (National Institute of Technology Kurukshetra, India), Rajesh Kumar Aggarwal (National Institute of Technology Kurukshetra, India) and Surjit Singh (Thapar Institute of Engineering and Technology, India)

## Description:

Recently there has been a tremendous paradigm shift in diversifying the workforce at both national and international levels. Having roots in the globalization trend that began in the 20th century, the boundaries of many states have been opened to foreign workers in the international business environment. Furthermore, depending on the dynamics of civilized societies around the world, employees from different ethnicities, races, and genders are offered more job positions day after day with the joint contributions of public and private enterprises. However, there is still a need to improve workplace diversity and equity, even if there have been promising developments.

**Handbook of Research on Multimedia Forensics and Content Integrity** brings together the emerging topics of inclusive leadership, diversity, equity, and inclusion in organizations in the digital transformation context. The book also offers theoretical infrastructure and the latest empirical research findings on inclusive leadership, diversity, equity, and digital transformation. Covering key topics such as social entrepreneurship, employee motivation, and diverse organizations, this premier reference source is ideal for managers, entrepreneurs, business owners, policymakers, researchers, scholars, academicians, practitioners, instructors, and students.
