

Handbook of Research on Innovative Techniques, Trends, and Analysis for Optimized Research Methods

Part of the Advances in Library and Information Science Book Series

Victor C.X. Wang (Grand Canyon University, USA) and
Thomas G. Reio Jr. (Florida International University, USA)

Description:

Information acquisition and management has always had a profound impact on societal and organizational progression. This is due to higher education programs continuously expanding, students and academics being engaged in modern research, and the constant evaluating of current processes in education for optimization for the future.

The **Handbook of Research on Innovative Techniques, Trends, and Analysis for Optimized Research Methods** is a comprehensive reference source focused on the latest research methods currently facing educational technology and learners. While highlighting the innovative trends and methods, readers will learn valuable ways to conduct research and advance the understanding of ideas based on the results of their research. This publication is an important asset for teachers, researchers, practitioners, and graduate students looking to gain more knowledge on research trends and their applications.

ISBN: 9781522551645
