

Emerging Technologies and Work-Integrated Learning Experiences in Allied Health Education

Part of the Advances in Educational Technologies and Instructional Design Book Series

Indu Singh (Griffith University, Australia) and Karun Raghuvanshi (Caterpillar of Australia Pty Ltd, Australia)

Description:

The Internet serves as an essential tool in promoting health awareness through the circulation of important research among the medical professional community. While digital tools and technologies have greatly improved healthcare, challenges are still prevalent among diverse populations worldwide.

Emerging Technologies and Work-Integrated Learning Experiences in Allied Health Education is a critical scholarly resource that examines constructivist teaching methods and active learning strategies in allied health education to enhance student knowledge and prepare them for the digital age. Featuring coverage on a broad range of topics, such as e-learning, microscopic morphology, and virtual reality, this book is geared towards researchers, academicians, medical professionals, and upper level students interested in the advancement and dissemination of medical knowledge.

ISBN: 9781522538509

Release Date: January, 2018
