

International Journal of Measurement Technologies and Instrumentation Engineering (IJMTIE)

ISSN: 2156-1737; EISSN: 2156-1729

Established 2011; Published Semi-Annually

Editor(s)-in-Chief: Ireneusz Jablonski (Wroclaw University of Technology, Poland) and Md. Zia-Ur- Rahman (KKR & KSR Institute of Technology and Sciences, India)

The **International Journal of Measurement Technologies and Instrumentation Engineering (IJMTIE)** is a dedicated source for high quality papers on measurement and instrumentation and displays how every process must be represented by means of data and the outcome must be referred to the true value. Development of measurement techniques is key in many areas, including the internet, power quality, renewable energy, biotechnology, and nanotechnology. Conversely, to express and display data, instrumentation is needed to process this information. Advances in instrumentation depend on improvements of electronic devices, physics, and material engineering. IJMTIE encourages contributions from eminent and distinguished scholars and academicians, practitioners, and entrepreneurs working in these areas.

Individual Price:

Print: US \$290.00

E-Journal: US \$290.00

Print + E-Journal: US \$350.00

Institution Price:

Print: US \$820.00

Online Access: US \$820.00

Print + Online Access: US \$995.00

Prices are subject to change without notification.

Topics Covered:

- Statistics
- Reliability
- Standardization
- Analog and digital systems
- Bioelectronics
- Biomedical and environmental applications
- Custom and semi-custom circuitry
- Data acquisition
- Devices and components
- Diagnosis and classification
- Distributed measurements
- Energy harvesting
- Image and signal processing
- Instrumentation improvements
- Power quality
- Mathematical models and design
- Microcontrol
- MeMs
- Metrics
- Metrology
- Nano and molecular electronics
- New methods and techniques of measurement
- Networking and interoperability
- Quality
- Remote Sensing
- Sampling
- Sensors and actuators
- Spectroscopy
- Test and measurements
- Wireless architectures

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. Interested authors must consult the journal's guidelines for manuscript submissions at www.igi-global.com/publish/resources prior to submission. All article submissions will be forwarded to the Editorial Review Board for double-blind, peer review.

All submissions and inquiries should be directed to the attention of:
Ireneusz Jablonski (i.jablonski@wp.pl) and Md. Zia-Ur-Rahman (mdzr55@gmail.com)
