Cases on Teaching Critical Thinking through Visual Representation Strategies

Cases on Teaching Critical Thinking through Visual Representation Strategies

Leonard J. Shedletsky and Jeffrey S. Beaudry

Part of the Advances in Educational Technologies and Instructional Design Book Series

Leonard J. Shedletsky (University of Southern Maine, USA) and Jeffrey S. Beaudry (University of Southern Maine, USA)

One of the most important aspects of a comprehensive education involves teaching students to analyze arguments and form their own opinions based on available information. Visual and graphical mapping strategies are useful in helping students to consider problems from a variety of perspectives.

Cases on Teaching Critical Thinking through Visual Representation Strategies brings together research from scholars and professionals in the field of education to provide new insights into the use of visual aids for student development in reasoning and critical thinking. This essential reference source will enable academics, researchers, and practitioners in fields such as education, business, and technology to more effectively foster students' critical thinking skills.

Topics Covered:

- Discourse Analysis
- Mapping Techniques
- Interpersonal Communication
- Argumentation
- Critical Analysis Techniques
- Interdisciplinary Contexts
- Self-Expression
- Teacher Feedback

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.
