

Strategic Imperatives and Core Competencies in the Era of Robotics and Artificial Intelligence

Part of the Advances in Computational Intelligence and Robotics Book Series

Roman Batko (Jagiellonian University, Poland) and Anna Szopa (Jagiellonian University, Poland)

Description:

The use of machines has changed the workplaces of today. While machinery is still not able to perform certain jobs that require creative or non-routine functions, their continuous advancements have shifted the dynamic between organizations and manual laborers.

Strategic Imperatives and Core Competencies in the Era of Robotics and Artificial Intelligence focuses on contemporary organizations and their use of new competencies. Features coverage on new skill identification and best practices for management.

Readers:

This book is essential for professionals, administrators, researchers, and students seeking current research on the latest developments in technological applications in the workplace.
