

Financial Management and Risk Analysis Strategies for Business Sustainability

Part of the Advances in Finance, Accounting, and Economics Book Series

Joaquín Enríquez-Díaz (University of A Coruña, Spain), Laura Castro-Santos (University of A Coruña, Spain) and Félix Puime-Guillén (University of A Coruña, Spain)

Description:

In light of the Sustainable Development Goals, sustainability is a factor to consider for understanding the changes that are coming in the business world and in different areas of management. Companies must reorient their business objectives towards sustainable and responsible production for the environment and society. In this context of change, it is important to open the debate and obtain more thorough knowledge on how companies should change their leaderships strategies and carry out their financial planning, as well as analyze the risk of their clients and innovative projects that respect the environment.

Financial Management and Risk Analysis Strategies for Business Sustainability proposes a series of practical and theoretical perspectives on how the business world has to evolve to adapt to the new situation the world has reached due to undeniable climate change forcing businesses to redefine their productive processes and internal organization. Topics highlighted include financial management procedures, corporate social responsibility, risk analysis, financial literacy, and innovation in sustainability and sustainable development. This book is a useful reference source for managers, executives, engineers, business professionals, financial analysts, researchers, academicians, and students in the areas of management, human resources, accounting and finance, taxation, environmental economics, and some engineering areas.
