

Handbook of Research on Environmental Education Strategies for Addressing Climate Change and Sustainability

Part of the Advances in Educational Technologies and Instructional Design Book Series

Ahmed Karmaoui (Southern Center for Culture and Sciences, Morocco), Abdelkrim Ben Salem (Mohammed V University, Morocco) and Mohd Talha Anees (University of Malaya, Malaysia)

Description:

Due to the increasing trend of international interest in education for climate change and the environment, there has been an increase of research in the area. There is a current question on what the best methods and tools are for integrating climate change education and sustainability into school programs. These educational methods can create the development of effective responses, attitudes, and behaviors to adapt to climate change. Empirical and conceptual models must be explored to help those interested in learning and teaching environmental education and climate change and adding it to modern school curriculum.

The **Handbook of Research on Environmental Education Strategies for Addressing Climate Change and Sustainability** produces innovative approaches, methods, and ideas in education for climate change, environment strategies, and sustainability along with the development of curriculum and strategies for sustainable development goals. Chapters encompass multiple disciplines such as geology, geography, remote sensing, geographic information system, environmental science, and environmental engineering. This book is ideal for in-service and preservice teachers, administrators, teacher educators, practitioners, stakeholders, researchers, academicians, and students interested in educational strategies and curriculum for climate change and sustainability.

ISBN: 9781799875123

Pages: 400

Copyright: 2021

Release Date: February, 2021

Hardcover: \$295.00

E-Book: \$295.00

**Hardcover +
E-Book:** \$355.00

Topics Covered:

Agriculture
Climate Change
Climate-Resilient Societies
Culturally-Relevant Science-
Based Projects

Curriculum
Ecotourism
Educational Practices
Environmental Education
Garden-Based Learning

K-12 Education
Pollution
Sustainability
Sustainability Teaching
Urbanization

Subject: Environmental, Agricultural, and Physical Sciences

Classification: Handbook of Research

Readership Level: Advanced-Academic Level
(Research Recommended)

Research Suitable for: Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
