

Research Anthology on Food Waste Reduction and Alternative Diets for Food and Nutrition Security

IRMA (Information Resources Management Association, USA)

Description:

The world population is expected to increase exponentially within the next decade, which means that the food demand will increase and so will waste production. The increasing demand for food as well as changes in consumption habits have led to the greater availability and variety of food with a longer shelf life. However, there is a need for effective food waste management and food preservation as wasted food leads to overutilization of water and fossil fuels and increasing greenhouse gas emissions from the degradation of food.

The **Research Anthology on Food Waste Reduction and Alternative Diets for Food and Nutrition Security** explores methods for reducing waste and cutting food loss in order to help the environment and support local communities as well as solve issues including that of land space. It also provides vital research on the development of plant-based foods, meat-alternative diets, and nutritional outcomes. Highlighting a range of topics such as agricultural production, food supply chains, and sustainable diets, this publication is an ideal reference source for policymakers, sustainable developers, politicians, ecologists, environmentalists, corporate executives, farmers, and academicians seeking current research on food and nutrition security.

ISBN: 9781799853541

Pages: 800

Copyright: 2021

Release Date: July, 2020

Hardcover: \$495.00

E-Book: \$495.00

**Hardcover
+ E-Book:** \$595.00

Topics Covered:

Agricultural Production

Climate Change

Food Preservation Technologies

Food Security

Food Supply Chains

Food Waste

Irrigation

Meat Alternatives

Meat Waste

Mindful Eating

Nutrition Security

Sustainable Diets

Subject: Environmental, Agricultural, and Physical Sciences

Classification: Critical Exploration

Readership Level: Advanced-Academic Level
(Research Recommended)

Research Suitable for: Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
