

# Energy Transition in the African Economy Post 2050

Part of the Practice, Progress, and Proficiency in Sustainability Book Series

Olayinka Ohunakin (Covenant University, Nigeria)

## Description:

In today's modern world, it is critical for countries and businesses to implement sustainable practices in order to evolve and grow. The African economy is one such area that requires further study and consideration to ensure it can thrive in the coming years.

**Energy Transition in the African Economy Post 2050** emphasizes the need for Sub-Saharan African countries to lay an enduring foundation for sustainable development and considers different ways this can be done as well as the associated challenges. Covering topics such as policy, public financing, climate finance, and clean energy, this reference source is ideal for government officials, policymakers, business owners, managers, industry professionals, researchers, scholars, practitioners, academicians, instructors, and students.
