

Establishing Digital Competencies in the Pursuit of Online Learning

Part of the Advances in Educational Technologies and Instructional Design Book Series

Eva Podovšovnik (University of Primorska, Faculty for Tourism Studies, Slovenia), Tonia De Giuseppe (University of Benevento- Giustino Fortunato, Italy) and Felice Corona (University of Salerno, Italy)

Description:

After two years of forced changes in the educational system and shifting to a new model where online learning became a reality, students and teachers gained a lot of experience and new insights into online learning. Thus, it is relevant for educators, managers of schools, and developers of online applications to understand what was learned during the pandemic in order to adapt to the new situation.

Establishing Digital Competencies in the Pursuit of Online Learning considers important lessons learned about online teaching during the pandemic, the experiences of educators, and the perspectives of students and teachers. The book also assists educators in designing their learning process for it to be more student- and teacher-oriented. Covering key topics such as technology, digital skills, and distance learning, this reference work is ideal for industry professionals, administrators, policymakers, principals, researchers, academicians, scholars, instructors, and students.

ISBN: 9781668470107

Pages: 330

Copyright: 2023

Release Date: May, 2023
