

# Technology-Enhanced Human Interaction in Modern Society

Part of the Advances in Human and Social Aspects of Technology Book Series

Francisco Vicente Cipolla-Ficarra (Latin Association of Human-Computer Interaction, Spain & International Association of Interactive Communication, Italy), Maria Valeria Ficarra (Latin Association of Human-Computer Interaction, Spain & International Association of Interactive Communication, Italy), Miguel Cipolla-Ficarra (International Association of Interactive Communication, Italy), Alejandra Quiroga (Universidad Nacional de La Pampa, Argentina), Jacqueline Alma (Electronic Arts – Vancouver, Canada) and Jim Carré (University of The Netherlands Antilles, Curaçao)

## Description:

Technology has changed the way people carry out their daily lives and communicate with one another. Society has become dependent on technology and with that comes the need to understand the advantages and disadvantages that come along with it.

**Technology-Enhanced Human Interaction in Modern Society** is an essential reference source for the latest scholarly research on the technological advances of applied aspects of life such as training, health, information gathering, and social communication. Featuring coverage on subjects including biomedical test instruments, computer animation, and mobile phones, this publication is ideally designed for researchers and academicians seeking current material on technology-based communication.
