

Handbook of Research on Heritage Management and Preservation

Part of the Advances in Religious and Cultural Studies Book Series

Patrick Ngulube (University of South Africa, South Africa)

Description:

Archives, museums, and libraries are pivotal to the management and preservation of any society's heritage. Heritage assets should be systematically managed by putting in place proper policies, maintenance procedures, security and risks measures, and retrieval and preservation plans.

The **Handbook of Research on Heritage Management and Preservation** is a critical scholarly resource that examines different aspects of heritage management and preservation ranging from theories that underline the field, areas of convergence and divergence in the field, infrastructure and the policy framework that governs the field, and the influence of the changing landscape on practice. Featuring coverage on a broad range of topics, such as community involvement, records legislation, and collection development, this book is geared towards academicians, researchers, and students seeking current research on heritage management and preservation.
