

Strategic Innovations and Interdisciplinary Perspectives in Telecommunications and Networking

Part of the Advances in Wireless Technologies and Telecommunication Book Series

Natarajan Meghanathan (Jackson State University, USA)

Description:

The lack of clear communication, especially internationally, plagues the modern world in a variety of fields. Researchers and practitioners within the modern networking and communication industries strive to discover new and innovative ways for humans to better contact one another.

Strategic Innovations and Interdisciplinary Perspectives in Telecommunications and Networking provides emerging research exploring the theoretical and practical aspects of network management and security, as well as applications within computer science, mobile and wireless computing, and multimedia technology. Featuring coverage on a broad range of topics such as coding theory, mobile devices, and contextual advertising, this book is ideal for students, researchers, social media marketers, brand managers, networking professionals, and engineers seeking current research on cross-disciplinary applications of electrical engineering, computer science, and information technology.

ISBN: 9781522581888

Release Date: February, 2019

Copyright: 2019

Pages: 300

Topics Covered:

- Benchmarking Algorithm
- Cellular Network
- Coding Theory
- Connected Dominating Sets
- Contextual Advertising
- Global Telecommunications
- Mobile Devices
- Radio Frequency Systems
- Small and Medium Enterprises
- Social Network Behavior
- Telecommunications Technology

Hardcover: \$195.00

E-Book: \$195.00

Hardcover + E-Book: \$235.00
