

Improving the Quality of Life for Dementia Patients through Progressive Detection, Treatment, and Care

Part of the Advances in Psychology, Mental Health, and Behavioral Studies Book Series

Jinglong Wu (Okayama University, Japan)

Description:

The prominence of dementia within the global aging population has undergone an increase in recent years. To improve the living conditions of patients, researchers must place more emphasis on early detection methods.

Improving the Quality of Life for Dementia Patients through Progressive Detection, Treatment, and Care provides a thorough overview of emerging research on various neuroscience methods for the early diagnosis of dementia and focuses on the improvement of healthcare delivery to patients. Highlights relevant issues on health information systems, behavioral indicators, and treatment methods.

Readers:

This book is a pivotal reference source for health professionals, neuroscientists, upper-level students, practitioners, and researchers interested in the latest developments within the field of dementia treatment.

ISBN: 9781522509257

Release Date: November, 2016

Copyright: 2017

Pages: 331

Topics Covered:

- Alzheimer's Disease
- Cognitive Training
- Emotional Stability
- Human-Computer Interaction
- Nutritional Status
- Stimulation Devices
- Unobtrusive vs. Obtrusive Detection

Hardcover +

Table of Contents

Foreword

Preface

Acknowledgment

Chapter 1

The Early Diagnosis of Alzheimer's Disease-From Behavioral to Genetic Study

Yanna Ren, Okayama University, Japan

Weiping Yang, Hubei University, China

Xiaoyu Tang, Okayama University, Japan

Fengxia Wu, Okayama University, Japan

Satoshi Takahashi, Okayama University, Japan

Jinglong Wu, Okayama University, Japan

Chapter 2

Environmental Landscape Design for Alzheimer's

Gökçen Firdevs Yücel, Istanbul Aydin University, Turkey

Chapter 3

Evaluation of the Relationship Between Nutritional Status and Quality of Life Among Nursing Home Residents with Alzheimer's Disease: Alzheimer's Disease

Alev KESER, Ankara University, Turkey

Filiz YILDIRIM, Ankara University, Turkey

Chapter 4

Early Detection of Dementia - Advances, Challenges and Future Prospects

Stefanos Xefteris, Aristotle University of Thessaloniki

Evdokimos Konstantinidis, Aristotle University of Thessaloniki

Antonis S. Billis, Aristotle University of Thessaloniki

Panagiotis Antoniou, Aristotle University of Thessaloniki

Charis Styliadis, Aristotle University of Thessaloniki

Evangelos Paraskevopoulos, Aristotle University of Thessaloniki

Panagiotis Emmanouil Kartsidis, Aristotle University of Thessaloniki

Christos A Frantzidis, Aristotle University of Thessaloniki

Panagiotis Bamidis, Aristotle University of Thessaloniki

Chapter 5

Dementia and Language Bilingualism Helps Ward off Alzheimer's Disease

Yiyang Yu, Northeast University, China

Sihan Lu, Northeast Normal University, China

Yan Wu, Northeast Normal University, China

Qiong Wu, Okayama University, Japan

Jinglong Wu, Okayama University, Japan

Chapter 6

Stimulation devices for human haptic perception and their applications in cranial nerve diseases

Jian Zhang, School of Mechatronical Engineering, Beijing Institute of Technology, China

Liancun Zhang, Beijing Institute of Technology, China

Jinglong Wu, Beijing Institute of Technology, China

Chapter 7

Transfer of training between Working Memory tasks and Attentional tasks

Ting Guo, Northeast Normal University, China

Yanna Ren, Okayama University, Japan

Xiaotong Zhu, Northeast Normal University, China

Hong Chen, Northeast Normal University, China

Satoshi Takahashi, Okayama University, Japan

Jinglong Wu, Okayama University, Japan

Chapter 8

Cognitive and Neural Mechanisms involved in interactions between touch and emotion

Zhilin Zhang, Beijing Institute of Technology, China

Tianyi Yan, Beijing Institute of Technology, China

Qiang Huang, Beijing Institute of Technology, China

Jinglong Wu, Beijing Institute of Technology, China

Chapter 9

Effects of Visual Contrast on Inverse Effectiveness in Audiovisual Integration

Fengxia Wu, Okayama University, Japan

Xiaoyu Tang, Liaoning Normal University, China

Okayama University, Japan

Yanna Ren, Okayama University, Japan

Weiping Yang, Hubei University, China

Okayama University, Japan

Jinglong Wu, Okayama University, Japan

Chapter 10

The status of research into intention recognition

Luyao Wang, Beijing Institute of Technology, China

Chunlin Li, Capital Medical University, China

Jinglong Wu, Beijing Institute of Technology, China

Chapter 11

Research on Current Situations for Functional Classification of Timing

Zhihan Xu, Okayama University, Japan

Qiong Wu, Okayama University, Japan

Chunlin Li, Capital Medical University, China

Yujie Li, Central China Normal University, China

Hongbin Han, Peking University, China

Dehua Chui, Peking University, China

Satoshi Takahashi, Okayama University, Japan

Jinglong Wu, Okayama University, Japan

Chapter 12

MRI-Compatible Haptic Stimuli Delivery Systems for Investigate Neural Substrates of Touch

Jiabin Yu, Okayama University, Japan

Zhiwei Wu, Okayama University, Japan

Jiajia Yang, Okayama University, Japan

Jinglong Wu, Okayama University, Japan

Chapter 13

The present visual system equipment and its application in fMRI

Jiayue Guo, Okayama University, Japan

Yang Feng, Okayama University, Japan

Meng Wang, Okayama University, Japan

Jinglong Wu, Okayama University, Japan

Chapter 14

Humanoid Robots — future avatars for humans through BCI

Si Zhang, Beijing Institute of Technology, China

Jinglong Wu, Beijing Institute of Technology, China

Qiang Huang, Beijing Institute of Technology, China

Index

Jinglong Wu was born in Jiutai, China, on August 4, 1958. He received the B.S. degree from Jilin Vocational Teachers College, China, the M.S. degree from Kyoto University, Japan, both in electric engineering, in 1984 and 1991, respectively, and the doctorate in electric engineering from Kyoto University, Japan, in 1994. He was an Assistant Professor at Ritsumeikan University, Japan, from April 1994 to March 1997, a Lectuer in Department of Mechanical Engineering, Faculty of Engineering, Yamaguchi University from April 1997 to March 1999. Since April 1999, he is Professor in the Department of Intelligent Mechanical Systems, Faculty of Engineering, Kagawa University. His current research interests are virtual reality, ergonomics, cognitive neuroscience and human science. Dr.Wu received the Best Paper Award of IEEE Joint International Conference on Neural Network in 1993 and the SICE Best Paper Award in 2000. In 2003 he received the Gennai Grand Prize, Ozaki Foundation, Japan.
