

Study Abroad Opportunities for Community College Students and Strategies for Global Learning

Part of the Advances in Higher Education and Professional Development Book Series

Gregory F. Malveaux (Montgomery College, USA) and
Rosalind Latiner Raby (California State University Northridge, USA)

Description:

Community colleges serve more students than any other institutional type in the United States, and internationalization is an inherent component of community colleges that advances student knowledge, facilitates student success, and serves the needs of local communities. As most community college students do not enroll in four-year institutions, their only opportunity for international experience is while they are in community college.

Study Abroad Opportunities for Community College Students and Strategies for Global Learning provides innovative insights into international study and education abroad through community colleges, while discussing the value of adding study abroad programs to two-year institutions. This publication examines community colleges' contributions in a local society, study abroad opportunities, peacebuilding, international education, and risk management. Designed for administrative professionals, community college leaders, educators, academicians, and researchers, this book covers topics centered on study abroad programs at diverse community colleges.

ISBN: 9781522562528
