

Multicultural Andragogy for Transformative Learning

Part of the Advances in Educational Technologies and Instructional Design Book Series

David P Peltz (University of Phoenix, USA) and Anthony C Clemons (Columbia University, USA)

Description:

As individuals progress through each stage of life, they continue to learn and grow intellectually. However, what may be a conducive learning environment for a child may not be as effective for an adult, creating a need to understand how to aid adults in being successful learners in their later life.

Multicultural Andragogy for Transformative Learning provides a diverse collection of positions related to adult learning. The book touches on a variety of topics including autonomous learning as a transformative experience, mixing cultures through intercultural methodology, and integrating cultural perspectives into organizational learning. As a publication with a focus on andragogy, this proves a useful resource for academicians, higher education administrators, and educators who teach both traditional and non-traditional students in higher education.
