

Challenges and Opportunities in Global Approaches to Education

Part of the Advances in Early Childhood and K-12 Education Book Series

Theresa D. Neimann (Oregon State University, USA) and Uta M. Stelson (Wayne State University Law School, USA)

Description:

In order to develop student competencies in K-12 and Higher Education environments, evidence-based tools and concepts are essential in ensuring the development of student skills and proficiencies. Evidence-based pedagogical practices leading to student learning preferences culturally and internationally are essential to educational success.

Challenges and Opportunities in Global Approaches to Education is an essential research publication that provides evidence-based tools and concepts to develop student competencies in the K-20 environment. Chapters in the monograph cover topics in a theoretical context such as how technology, online learning, and culture inform evidence-based development of student competencies. This book is essential for curriculum teachers, designers, instructional designers, administrators, professionals, researchers, academicians, and students concerned with the management of expertise, knowledge, information, and organizational development in different types of educational communities and environments.
