Cases on Electronic Records and Resource Management Implementation in Diverse Environments

Part of the Advances in Information Quality and Management (AIQM) Book Series

Janice Krueger
(Clarion University of Pennsylvania, USA)

While web-based accessible materials have offered academic libraries an effective approach to managing electronic records and resources for its service population, a cross-discipline approach has not yet been executed.

Cases on Electronic Records and Resource Management Implementation in Diverse Environments brings together real-life examples of how electronic records and resource management have been implemented across disciplines. Offering theories amid legal and ethical concerns of electronic records and resource management, this publication is essential for professionals involved in the education of library and information science and the training of individuals responsible for electronic records management in various disciplines.

Topics Covered:

- Digital Government Documents
- Electronic Data Exchange
- Electronic Medical Records
- Electronic Records and Resource Management
- Music Storage and Retrieval
- Proprietary vs. Open Source Systems
- Scholarly Publishing
