Computational Tools and Techniques for Biomedical Signal Processing

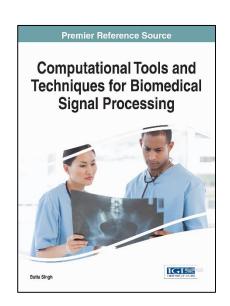

Part of the Advances in Bioinformatics and Biomedical Engineering Book Series

Butta Singh (Guru Nanak Dev University, India)

Description:

Biomedical signal processing in the medical field has helped optimize patient care and diagnosis within medical facilities. As technology in this area continues to advance, it has become imperative to evaluate other ways these computation techniques could be implemented.

Computational Tools and Techniques for Biomedical Signal Processing investigates high-performance computing techniques being utilized in hospital information systems. Features comprehensive coverage on various theoretical perspectives, best practices, and emergent research in the field.

Readers:

This book is ideally suited for computer scientists, information technologists, biomedical engineers, data-processing specialists, and medical physicists interested in signal processing within medical systems and facilities.

ISBN: 9781522506607 Release Date: September, 2016 Copyright: 2017 Pages: 360

Topics Covered:

- Clustering Techniques
- Data Compression
- Healthcare Information Systems
- Kalman Filter Algorithm
- Medical Imaging
- Sensor Technology
- Wavelet Decomposition

Table of Contents

Chapter 1

Nonlinear Complexity Sorting Approach for 2D ECG Data Compression

Anukul Pandey

Dr B R Ambedkar National Institute of Technology, Jalandhar, India Butta Singh

Guru Nanak Dev University Regional Campus, Jalandhar, India Barjinder Singh Saini

Dr B R Ambedkar National Institute of Technology, Jalandhar, India Neetu Sood

Dr B R Ambedkar National Institute of Technology, Jalandhar, India

Chapter 2

A Review on Noninvasive Beat-to-Beat Systemic and Pulmonary Blood Pressure Estimation through Surrogate Cardiovascular Signals

Ana Castro

Instituto de Telecomunicações, Faculdade de Ciências da

Universidade do Porto, Portugal

Paulo de Carvalho

Center for Informatics and Systems of the University of Coimbra, Portugal

Jens Muehlsteff

Philips Research Europe, Eindhoven, Netherlands

Sandra S. Mattos

Unidade de Cardiologia e Medicina Fetal, Real Hospital Português,

Recife, Brasil

Miguel Coimbra

Instituto de Telecomunicações, Faculdade de Ciências da Universidade do Porto, Portugal

Chapter 3

Non-linear Analysis of Heart Rate Variability and ECG Signal Features of Swimmers From NIT-Rourkela: A Case Study

Anupama Ray

Indian Institute of Technology, Delhi, India

Suraj Kumar Nayak

National Institute of Technology, Rourkela, India

Biswajeet Champaty

National Institute of Technology, Rourkela, India

D. N. Tibarewala

Jadavpur University, India

Kunal Pal

National Institute of Technology, Rourkela, India

Chapter 4

Parameter Estimation of Nonlinear Biomedical Systems Using Extended Kalman Filter Algorithm: Development of Patient Specific Models

Kamalanand Krishnamurthy

Anna University, MIT Campus, India

Chapter 5

Two-directional Two-dimensional Principal Component Analysis based on Wavelet Decomposition for High-Dimensional Biomedical Signals Classification

Hong-Bo Xie

Queensland University of Technology, Australia

Tianruo Guo

The University of New South Wales, Australia

Chapter 6

Medical Image Enhancement using Edge Information based Methods

S. Anand

Mepco Schlenk Engineering College, Sivakasi, India

Chapter 7

Success Dimensions of ICTs in Healthcare

Pankaj Deep Kaur

Guru Nanak Dev University Regional Campus, Jalandhar, India

Pallavi Sharma

Guru Nanak Dev University Regional Campus, Jalandhar, India

Chapter 8

Non Invasive Cuffless Blood Pressure Monitoring System

Harinderjit Singh

University Institute of Engineering and Technology, Panjab University, Chandigarh, India

Dilip Kumar

Sant Longowal Institute of Engineering and Technology, Longowal, India

Chapter 9

Electromyogram and Inertial Sensor Signal Processing in Locomotion and Transition Classification

Deepak Joshi

Indian Institute of Information Technology, Allahabad, India

Michael E Hahn

University of Oregon, Eugene, US

Chapter 10

Single Electronics for Biomedical Applications

Deep Kamal Kaur Randhawa

Guru Nanak Dev University, Regional Campus Jalandhar, India

Chapter 11

Analysis of HRV during the Menstrual Cycle and Postmenopause Kirti Rawal

Dr. B R Ambedkar National Institute of Technology, Jalandhar, India Barjinder Singh Saini

Dr. B R Ambedkar National Institute of Technology, Jalandhar, India Indu Saini

Dr. B R Ambedkar National Institute of Technology, Jalandhar, India

Chapter 12

A Comparative Study on Diabetic Retinopathy Detection using Texture based Feature Extraction Techniques

Azam Asilian Bidgoli
University of Kashan, Iran
Hossein Ebrahimpour-Komleh
University of Kashan, Iran
Seyed Jalaleddin Mousavirad
University of Kashan, Iran

Chapter 13

Analysis of Electrocardiogram Data Compression Techniques: A MATLAB Based Approach

Anukul Pandev

Dr B R Ambedkar National Institute of Technology, Jalandhar, India Bariinder Singh Saini

Dr B R Ambedkar National Institute of Technology, Jalandhar, India Butta Singh

Guru Nanak Dev University Regional Campus, Jalandhar, India NeetuSood

Dr B R Ambedkar National Institute of Technology, Jalandhar, India

Chapter 14

Energy Efficient Particle Optimized Compressed ECG Data over Zigbee Environment

Dilip Kumar

Sant Longowal Institute of Engineering and Technology, Longowal, India

Raieev Kumar

DAV Institute of Engineering and Technology, India

Tony Singla

DAV Institute of Engineering and Technology, India

Chapter 15

Optimized Clustering Techniques With Special Focus To Biomedical Datasets

Anusuya S. Venkatesan

Saveetha School of Engineerig, Saveetha University, India

Butta Singh received his Bachelor's degree in Electronics and Communication Engineering from Guru Nanak Dev Engineering College, Ludhiana, Punjab, India in 2002, Master's degree in Instrumentation and Control Engineering from Sant Longowal Institute of Engineering and Technology, Longowal, Sangrur, Punjab, India in 2005 and PhD degree from National Institute of Technology, Jalandhar, Punjab, India. He is serving as a Asst professor in the Department of Electronics and Communication Engineering, Guru Nanak Dev University, Regional Campus, Jalandhar, Punjab, India. His professional research interests are in signal processing, in particular, applied to biomedical applications. He has published over 40 research articles in internationally reputed journals and conference proceedings.
