

Community Resilience and Climate Change Challenges: Pursuit of Sustainable Development Goals (SDGs)

Part of the Practice, Progress, and Proficiency in Sustainability Book Series

Amiya Bhaumik (Lincoln University College, Malaysia), Sandeep Poddar (Lincoln University College, Malaysia), Manish Dadhich (Sir Padampat Singhania University, India), Kamal Kant Hiran (Sir Padampat Singhania University, India) and Ruchi Doshi (Universidad Azteca, Mexico)

Description:

Communities around the world face an array of unprecedented challenges from climate change. From extreme weather events to biodiversity loss and resource scarcity, the impacts of climate change are far-reaching and multifaceted. Yet, amidst these challenges lies an opportunity for communities to build resilience and chart a path towards sustainable development. However, navigating this complex terrain requires actionable strategies, innovative approaches, and interdisciplinary collaboration.

Community Resilience and Climate Change Challenges: Pursuit of Sustainable Development Goals (SDGs) emerges as a beacon of hope in addressing these pressing issues. By delving into the critical intersection of community resilience and the pursuit of SDGs, this book offers a comprehensive guide for empowering communities to adapt and thrive amidst climate uncertainties. Through a diverse range of practical strategies, case studies, and innovative approaches, it equips decision-makers, practitioners, and educators with the knowledge and tools needed to tackle the complex challenges of climate change and sustainable development.

With its interdisciplinary approach and emphasis on actionable solutions, this book serves as a catalyst for positive change. From empowering communities with grassroots initiatives to harnessing the power of technology and data-driven approaches, the book provides invaluable insights applicable to a wide range of stakeholders. By fostering collaboration, innovation, and collective action, it inspires communities to build resilience, mitigate the impacts of climate change, and pursue a more sustainable future in alignment with the ambitious goals of the SDGs.
