Optimizing Regional Development Through Transformative Urbanization

Part of the Advances in Electronic Government, Digital Divide, and Regional Development Book Series

Umar G. Benna (Benna Associates, Nigeria)

Description:
Assisted by globalization and the rapid application of advanced technologies, the transformative power of urbanization is being felt around the world. The scale and the speed of existing and projected urbanization poses several challenges to researchers in multiple disciplines, such as computer science, engineering, and the social sciences.

Optimizing Regional Development Through Transformative Urbanization provides emerging research exploring the theoretical and practical aspects of applications within urban growth interventions. It also explores the strategies for new urban development tools such as the rise of new platforms for digital activities, concepts of sharing economy, collaborative economy, crowdsourcing, and crowdfunding. Featuring coverage on a broad range of topics such as cryptocurrencies, public-private partnership, and urban governance, this book is a vital reference for city development planners, decision makers, policymakers, academicians, researchers, and professionals seeking current research on the delivery of transformative urbanization changes.

Topics Covered:

- Blockchain Technology
- City-Region Development
- Cryptocurrencies
- Economic Growth
- Knowledge-Based Development
- Public-Private Partnership
- Sustainable Cities
- Urban Governance
- Urban Growth
