

Transportation, Logistics, and Supply Chain Management in Home Healthcare: Emerging Research and Opportunities

Part of the Advances in Logistics, Operations, and Management Science Book Series

Jalel Euchi (LOGIQ Laboratory, Sfax University, Tunisia)

Description:

With advancing technology and the digitization of the modern era, businesses are required to adopt the latest innovations computer science and information technology have to offer. The field of home healthcare must utilize the finest available operations management systems in order to remain relevant in a globalized world while also providing the best treatment possible to its patients.

Transportation, Logistics, and Supply Chain Management in Home Healthcare: Emerging Research and Opportunities is an essential reference source that provides theoretical and empirical research on logistics management and transportation and scheduling routing and their applications in home healthcare and logistics. While highlighting topics such as hybrid energy, scheduling optimization, and forecasting techniques, this book is ideally designed for outpatient doctors and nurses, transportation professionals, logisticians, home healthcare managers, computer scientists, logistic engineers, health practitioners, academicians, researchers, and students.

ISBN: 9781799802686

Release Date: September, 2019 **Copyright:** 2020

Pages: 260

Topics Covered:

- Big Data
- Decision Support Systems
- Dock Formulations
- Forecasting Techniques
- Hybrid Energy
- Manufacturing
- Materials Flow Systems
- Metaheuristics
- Scheduling Optimization
- Service Engineering
- Warehousing Design

Hardcover: \$185.00

E-Book: \$185.00

Hardcover + E-Book: \$220.00
