

# New Developments in Diagnosing, Assessing, and Treating ADHD

Part of the Advances in Medical Diagnosis, Treatment, and Care Book Series

Rejani Thudalikunnil Gopalan (Mahatma Gandhi Medical College and Hospital, India)

## Description:

It seems as though each day more children are diagnosed with attention-deficit/hyperactivity disorder (ADHD). ADHD causes challenges not only for the patient but also for their parents, siblings, teachers, and other significant people in their lives. They have an increased vulnerability to addiction and crime. Controversially, stimulants are the primary choice for treatment of ADHD in medical management, and the side effects of this long-term pharmacological management has raised many questions. Psychosocial management including parent training, behavior therapy, and educational inputs are also major components of treatment and should not be ignored. Thus, it is vital to explore the latest best practices for the diagnosis, assessment, and management of ADHD.

**New Developments in Diagnosing, Assessing, and Treating ADHD** is a collection of research on innovations in the management of ADHD. While highlighting topics including adolescent care, neurological disorders, and mental health, this book is ideally designed for academicians, clinicians (especially psychiatrists, clinical psychologists, and pediatricians), social workers, psychiatric nurses, rehabilitation centers, researchers, and students interested in the handling of this disorder and the long-term effects and social risk factors associated with treatment.

**ISBN:** 9781799854951

**Pages:** 300

**Copyright:** 2021

**Release Date:** August, 2020

**Hardcover:** \$265.00

**E-Book:** \$265.00

**Hardcover  
+ E-Book:** \$320.00

## Topics Covered:

Adolescent Care  
Adult Care  
Brain Development  
Hyperkinetic Disorder  
Medical Treatment

Mental Health  
Neurological Disorders  
Parental Management  
Pharmacological Treatment  
Risk Factor Analysis

**Subject:** Medical, Healthcare, and Life Sciences

**Classification:** Edited Reference

**Readership Level:** Advanced-Academic Level  
(Research Recommended)

**Research Suitable for:** Advanced Undergraduate  
Students; Graduate Students; Researchers;  
Academicians; Professionals; Practitioners
