Handbook of Research on Industrial Informatics and Manufacturing Intelligence: Innovations and Solutions

Mohammad Ayoub Khan (Centre for Development of Advanced Computing, India) & Abdul Quaiyum Ansari (Jamia Millia Islamia, India)

As industrial systems become more widespread, they are quickly becoming network-enabled, and their behavior is becoming more complex and intelligent.

The Handbook of Research on Industrial Informatics and Manufacturing Intelligence: Innovations and Solutions is the best source for the most current, relevant, cutting-edge research in the field of industrial informatics. The book focuses on different methodologies of information technologies to enhance industrial fabrication, intelligence, and manufacturing processes. Industrial informatics uses the infrastructure of information technology for analysis, effectiveness, reliability, higher efficiency, security enhancement in the industrial environment, and this book collects the latest publications relevant to academics and practitioners alike.

Topics Covered:

- Adaptive learning
- Automation
- Data fusion
- Human computer interaction
- Intelligent agents
- Machine learning
- Mechatronics and robotics
- Neural network
- Neuro-psychoanalytic models
- Platform technologies

ISBN: 9781466602946; © 2012; 660 pp.

Print: US \$270.00 | Perpetual: US \$405.00 | Print + Perpetual: US \$540.00

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.

M. Ayoub Khan is working with Center for Development of Advanced Computing (Ministry of Communication and IT), Govt. of India with interests in Radio Frequency Identification, microcircuit design, and signal processing, NFC, front end VLSI (Electronic Design Automation, Circuit optimization, Timing Analysis), Placement and Routing in Network-on-Chip etc. He has more than seven years' experience in his research area. He has published more than 50 papers in the reputed journals and international IEEE conferences. He is contributing to the research community by various volunteer activities. He has served as Conference chair in various reputed IEEE/Springer international conferences. He is member of professional bodies of IEEE, ACM, ISTE and EURASIP society. He is also member of technical committee at various journals of IEEE, Springer and Elsevier. Recently, he has also co-authored/edited three books. He may be reached at ayoub@ieee.org.

Publishing Academic Excellence
at the Pace of Technology Since 1988

Section 1: Fundamentals of Industrial Informatics and Design

Chapter 1

Fundamentals of Industrial Informatics and Communication Technologies

Ansari Abdul Quaiyum (Jamia Millia Islamia, New Delhi, India)
Khan Mohammad Ayoub (Centre for Development of Advanced Computing, Noida, India)

Chapter 2

Industrial Information Security, Safety, and Trust

Tyagi Sapna (Institute of Management Studies, India)
Sirohi Preeti (Institute of Management Studies, India)
Khan Mohammad Yahya (King Saud University, Kingdom of Saudi Arabia)
Darwish Ashraf (Helwan University, Egypt)

Section 2: Computational Intelligence in Informatics Algorithms

Chapter 3

Fuzzy Logic

Bhattacharyya Siddhartha (The University of Burdwan, India)
Dutta Paramartha (Visva-Bharati University, India)

Chapter 4

ANNs for Identifying Shock Loads in Continuously Operated Biofilters:

Rene Eldon R. (University of La Coruña, Spain)
López M. Estefanía (University of La Coruña, Spain)
Park Hung Suck (University of Ulsan, South Korea)
Murthy D. V. S. (Broward College, USA)
Swaminathan T. (Indian Institute of Technology Madras, India)

Chapter 5

Novel Meta-Heuristic Optimization Techniques for Solving Fuzzy Programming Problems

Vasant Pandian (University Technology Petronas, Malaysia)

Chapter 6

Functional Safety of Distributed Embedded Control Systems

Gharbi Atef (INSAT, Tunisia)
Gharsellaoui Hamza (INSAT, Tunisia)
Khalgui Mohamed (Xidian University, China)
Ben Ahmed Samir (INSAT, Tunisia)

Chapter 7

Integration of Fuzzy Logic Techniques into DSS for Profitability Quantification in a Manufacturing Environment

Elamvazuthi Irraivan (Universiti Teknologi PETRONAS, Malaysia)
Vasant Pandian (Universiti Teknologi PETRONAS, Malaysia)
Ganesan Timothy (Universiti Teknologi PETRONAS, Malaysia)

Chapter 8

Rough Set Based Aggregation for Effective Evaluation of Web Search Systems

Ali Rashid (Aligarh Muslim University, India)
Beg M. M. Sufyan (Jamia Millia Islamia, India)

Chapter 9

Technology Support for Knowledge Management in Industrial Settings:

Saeed Saqib (University of Siegen, Germany)
Ahmad Rizwan (Qatar University, Qatar)
Mahmood Zaigham (University of Derby, UK)
Khan Mohammad Ayoub (Ministry of Communications and IT, India)

Chapter 10

Industrial Informatics:

Shahzadi Iram (Al-Khwarizmi Institute of Computer Science, University of Engineering & Technology, Pakistan)
Ahmad Qanita (Al-Khwarizmi Institute of Computer Science, University of Engineering & Technology, Pakistan)
Sarwar Imran (Al-Khwarizmi Institute of Computer Science, University of Engineering & Technology, Pakistan)

Chapter 11

Adaptive Network Based Fuzzy Interference System (ANFIS) Modeling of an Anaerobic Wastewater Treatment Process

Mullai P. (Annamalai University, India)
Rene Eldon R. (University of La Coruña, Spain)
Park Hung Suck (Center for Clean Technology and Resource Recycling, University of Ulsan, South Korea)
Sabarathinam P. L. (Annamalai University, India)

Chapter 12

Evolutionary Computing:

Dutta Paramartha (Visva-Bharati University, India)
Bhattacharya Paramita (Yousuf Institution for Girls, India)
Bhattacharyya Siddhartha (The University of Burdwan, India)

Section 3: Emerging Trends in Industrial Informatics

Chapter 13

Widespread Adoption of RFID Technology

Ahmed Nova (Georgia Tech Research Institute (GTRI), USA)

Chapter 14

Application of Wireless Sensor Networks in Industrial Settings

Jain P C (Centre for Development of Advanced Computing (C-DAC), Noida (UP), India)

Section 4: Tools and Technologies in Industry

Chapter 15

Linux Based Real-Time Control over Industrial Networks

Fodrek Peter (Slovak University of Technology, Slovakia)
Blaho Michal (Slovak University of Technology, Slovakia)
Foltin Martin (Slovak University of Technology, Slovakia)
Lichý Matúš (Invensys Systems, s.r.o., Slovakia)
Murgaš Tomáš (RT Systems, s.r.o., Slovakia)

Chapter 16

Traffic Control of Two Parallel Stations Using the Optimal Dynamic Assignment Policy

Kadry Seifedine (American University of the Middle East, Kuwait)

Chapter 17

Feasible Automatic Reconfigurations of Real-Time OS Tasks

Gharsellaoui Hamza (National Institute of Applied Sciences and Technology, Tunisia)
Gharbi Atef (National Institute of Applied Sciences and Technology, Tunisia)
Khalgui Mohamed (Martin Luther University, Germany)
Ben Ahmed Samir (National Institute of Applied Sciences and Technology, Tunisia)

Chapter 18

Improving Industrial Product Lifecycle Management by Semantic Data Federations

Kunz Steffen (Humboldt-Universität zu Berlin, Institute of Information Systems, Germany)
Fabian Benjamin (Humboldt-Universität zu Berlin, Institute of Information Systems, Germany)
Aleksy Markus (ABB Corporate Research Center Germany, Germany)
Wauer Matthias (Technische Universität Dresden, Germany)
Schuster Daniel (Technische Universität Dresden, Germany)

Chapter 19

SoftPLC-Based Control:

Scanzio Stefano (Istituto di Elettronica e di Ingegneria dell'Informazione e delle Telecomunicazioni, Italy)

Chapter 20

Performance Evaluation of a Dynamic Model of a Photovoltaic Module for Real-Time Maximum Power Tracking

Alam M. S. (Magna E-Car Systems of North America, USA)
Alouani A. T. (Tennessee Technological University, USA)

Section 5: Case Studies in Industrial Informatics

Chapter 21

III-V Nitride Based Novel Solid-State Terahertz Power-Source:

Mukherjee Moumita (Centre for Millimeter-wave Semiconductor Devices & Systems (CMSDS), Institute of Radio Physics and Electronics, University of Calcutta, India)

Chapter 22

Secure RFID-Enablement in Modern Companies:

Schapanow Matthieu-P. (Hasso Plattner Institute, The University of Potsdam, Germany)

Müller Jürgen (Hasso Plattner Institute, The University of Potsdam, Germany)

Zeier Alexander (Hasso Plattner Institute, The University of Potsdam, Germany)

Plattner Hasso (Hasso Plattner Institute, The University of Potsdam, Germany)

Chapter 23

An Intelligent Hybrid Model for Bus Load Forecasting in Electrical Short-Term Operation Tasks

Salgado Ricardo Menezes (Institute of Exact Sciences, Federal University of Alfenas, Brazil & University of Campinas, Brazil)

Ohishi Takaaki (University of Campinas, Brazil)

Ballini Rosangela (Institute of Economics, University of Campinas, Brazil)

Chapter 24

Intelligent Techniques for the Analysis of Power Quality Data in Electrical Power Distribution System

Paracha Zahir Javed (Victoria University, Australia)

Kalam Akhtar (Victoria University, Australia)
