Released: June 2012

## Theoretical and Analytical Service-Focused Systems Design and Development

Dickson K. W. Chiu (Dickson Computer Systems and The Hong Kong Polytechnic University, Hong Kong)

Systems designers are asked constantly to improve end-users' experiences while ensuring network stability and security and minimizing the use of resources. This trifold demand can only be met by incorporating the latest technological advances into the design, development, and maintenance of new software systems.

**Theoretical and Analytical Service-Focused Systems Design and Development** provides solutions to these challenges. It advances the practice and understanding of contemporary theories and empirical analysis for systems engineering in a way that achieves service excellence.

### Topics Covered:

- Machine Learning
- Intelligent Systems Design
- Service-Oriented Systems
- E-Services Development
- Financial Enterprise Content Management Services
- Service Level Agreements
- Grid and High Performance Computing
- Mobile Service-Oriented Environments
- Service Oriented Computing Systems
- Capacity-Driven Web Services

ISBN: 9781466617674; © 2012; 515 pp.

Print: US \$195.00 | Perpetual: US \$295.00 | Print + Perpetual: US \$390.00

**Market:** This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.
