ISBN: 9781466617766; © 2012; 457 pp.

Print: US \$180.00 | Perpetual: US \$270.00 | Print + Perpetual: US \$360.00

Vishanth Weerakkody (Brunel University, UK)

Electronic Government is continually advancing in topics such as hardware and software technology, e-government adoption and diffusion, e-government policy, e-government planning, management, e-government applications, and e-government impacts.

Technology Enabled Transformation of the Public Sector: Advances in E-Government is filled with original research about electronic government and supplies academicians, practitioners, and professionals with quality applied research results in the field of electronic/digital government, its applications, and impacts on governmental organizations around the world. This title effectively and positively provides organizational and managerial directions with greater use and management of electronic/digital government technologies in organizations. It also epitomizes the research available within e-government while exponentially emphasizing the expansiveness of this field.

Topics Covered:

- Digital rights management
- E-government databases
- Electronic healthcare (e-health) services
- Information security in e-government
- Innovative applications and best practices in e-government
- International integration/collaboration of e-government
- IT management issues in e-government
- Local e-government implementation and diffusion
- Public and private partnership management
- Assessment of e-government projects
- Social issues and trust in e-government

Market: This premier publication is essential for all academic and research library reference collections.

It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.

Vishanth Weerakkody is a member of faculty in the Business School at Brunel University (UK). VW was previously a faculty member in the Department of IS and Computing at Brunel University and he has held various IT positions in multinational organizations, including IBM UK. VW is a member of the British Computer Society, Chartered IT professional and a Fellow of the UK Higher Education Academy.
