Released: July 2012

Digital Literacy: Concepts, Methodologies, Tools, and Applications

Information Resources Management Association (IRMA)

It has never been more important to have the ability to locate, comprehend, evaluate, and organize information using digital technology than it is in today's world. By understanding and knowing how to utilize this technology, individuals can communicate and work more effectively and more efficiently.

Digital Literacy: Concepts, Methodologies, Tools and Applications presents a vital compendium of research detailing the latest case studies, architectures, frameworks, methodologies, and research on Digital Literacy. With contributions from authors around the world, this three-volume collection presents the most sophisticated research and developments from the field, relevant to researchers, academics, and practitioners alike. In order to stay abreast of the latest research, this book affords a vital look into Digital Literacy research.

Topics Covered:

- Computer literacy
- Cultural effects of technology
- Cyber culture
- Digital divide
- Information literacy
- Interaction in digital environments
- Interactive learning communities
- Knowledge sharing
- Learning technologies
- Online behavior
- Online communities

Market: This premier publication is essential for all academic and research library reference collections.

It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.

Information Resources Management Association (IRMA) is a research-based professional organization dedicated to advancing the concepts and practices of information resources management in modern organizations. IRMA's primary purpose is to promote the understanding, development and practice of managing information resources as key enterprise assets among IRM/IT professionals. IRMA brings together researchers, practitioners, academicians, and policy makers in information technology management from over 50 countries.
