Knowledge and Technological Development Effects on Organizational and Social Structures

José Abdelnour-Nocera (University of West London, UK)

As the growing relationship between individuals and technology continue to play a vital role in our society and work place, the progress and execution of information technology communication systems is important in maintaining our current way of life.

Knowledge and Technological Development Effects on Organizational and Social Structures provides a wide ranging discussion on the exchanging of research ideas and practices in an effort to bring together the social and technical aspects within organizations and society. This collection focuses on new ideas and studies for research, students, and practitioners.

Topics Covered:

- Design and Technology Development Issues
- Information Systems Development
- Innovation
- Knowledge Management Systems
- Organizational Change
- Systems Failures
- Technological Forecasting and Social Change
- Technology and its Role in Society and Organizations

ISBN: 9781466621510; © 2013; 293 pp.

Pre-pub Discount:*

Print: US \$165.00 | Perpetual: US \$250.00

* Pre-pub price is good through one month after publication date.

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.

José Abdelnour-Nocera is Principal Lecturer and Head of The Centre for Internationalisation and Usability at the University of West London. His interests lie in the socio-technical and cultural aspects of systems design, development and use. In pursuing these interests, he has been involved as researcher and consultant in several projects in the UK and overseas in the domains of e-learning in social development, e-commerce, e-governance, and enterprise resource planning systems. Dr. Abdelnour-Nocera gained an MSc in Social Psychology from Simon Bolivar University, Venezuela, and a PhD in Computing from The Open University, UK.

Section 1: Design and Participation

Chapter 1

Socio-Technical Systems:

Fischer Gerhard (University of Colorado, Boulder, USA)
Herrmann Thomas (University of Bochum, Germany)

Chapter 2

Engineering Organisational Behaviour with Design Research

Tuffley David (Griffith University, Australia)

Section 2: Methods

Chapter 3

Developing Organisational Stories through Grounded Theory Data Analysis:

Coakes Elayne (University of Westminster, UK)
Elliman Anthony (Brunel University, UK)

Chapter 4

Identifying Issues of the Chief Information Officer Role through Qualitative Interviews

Hunter M. Gordon (University of Lethbridge, Canada)

Chapter 5

Review of Regional Workplace Development Cases:

Reiman Arto (University of Oulu, Finland)
Väyrynen Seppo (University of Oulu, Finland)

Section 3: Sociotechnical Balancing

Chapter 6

Strengthening and Enriching Audit Practice:

Smith Peter A. C. (The Leadership Alliance, Canada)

Chapter 7

Balancing McLuhan With Williams:

Potts Liza (Old Dominion University, USA)

Chapter 8

Towards a Conceptual Knowledge Management System Based on Systems Thinking and Sociotechnical Thinking

Sajeva Svetlana (Kaunas University of Technology, Lithuania)

Section 4: ST Experiences: Latin America and Africa

Chapter 9

Telemedicine and Development:

Miscione Gianluca (University of Twente, The Netherlands)

Chapter 10

Building Industrial Clusters in Latin America:

Scheel Carlos (EGADE, Tecnológico de Monterrey, Mexico)
Pineda Leonardo (Universidad del Rosario, Colombia)

Chapter 11

The Impact of Organisational Politics on the Implementation of IT Strategy:

Iyamu Tiko (Tshwane University of Technology, South Africa)

Chapter 12

Boundary Critique and Stakeholder Collaboration in Open Source Software Migration:

Jokonya Osden (University of KwaZulu Natal, South Africa)
Hardman Stan (University of KwaZulu Natal, South Africa)

Section 5: Sociotechnical Thinking in Military Environments

Chapter 13

When Knowledge Management Drives a Strategic Transformation Project:

Guimarães Alexandre Velloso (Brazilian Air Force, Brazil)

Chapter 14

Boundaries of Socio-Technical Systems and IT for Knowledge Development in Military Environments

Ariely Gil-Ad (California State University, USA, and The Interdisciplinary Center, Israel)
