Cases on Enterprise Information Systems and Implementation Stages:
Learning from the Gulf Region

Cases on Enterprise Information Systems and Implementation Stages
Learning from the Gulf Region

Fayez Ahmad Albadri

Fayez Albadri (ADMO-OPCO, UAE)

After the introduction of Enterprise Information Systems (EIS) and Enterprise Resources Planning (ERP) applications to many business organizations, the functional issues such as technical problems, security threats, persistent end-user resistance, and the excessive hidden costs of these systems began coming to light.

Cases on Enterprise Information Systems and Implementation Stages: Learning from the Gulf Region focuses on the Gulf region and it's lead on the enterprise systems adoption which has exceeded those in many developed countries. This reference book highlights experiences implementing EIS, delivering a comprehensive multi-perspective account of EIS issues, and explores the concerns, risks, and critical success factors of EIS for a variety of organizations. It aims to be beneficial for both practitioners and academics alike.

Topics Covered:

- EIS & Electronic Business
- EIS & Risk Management
- EIS Applications: ERP, CRM, Supply Chain
- EIS Implementation and Integration Issues
- EIS Issues: Security, Cultural, Ethical
- EIS Post-Implementation Issues
- EIS Stakeholders and End-Users Issues
- EIS Success / Failure & CSF
- EIS Selection Methods and Issues
