Technologies, Innovation, and Change in Personal and Virtual Learning Environments

Michael Thomas (University of Central Lancashire, UK)

Over the last decade there continues to be an increase in the technology and how it affects our lives. Since then the incorporation of electronic databases and other communication tools for students, faculty and staff, virtual learning environments have become an important innovation in the student learning experience.

Technologies, Innovation, and Change in Personal and Virtual Learning Environments presents a widespread collection of research on the growth, innovation and implementation of learning technologies for educators, technologists and trainers. The book is a useful source for academics and professionals interested in information and communication technologies.

Topics Covered:

- Blended Learning Environments
- Computer Mediated Communication
- Curriculum Development
- Emerging Technologies
- Game- Based Learning
- Language Learning
- Mobile Learning Environments and Applications
- Virtual Learning Environments
