

An Excellent Addition to Your Library!

Released: November 2012

Dynamic Models for Knowledge-Driven Organizations

Murray E. Jennex (San Diego State University, USA)

Since knowledge systems and knowledge management programs are put in place to monitor workers in the performance of their jobs; knowledge is, therefore, an essential component in the achievement of goals and production of economic benefit of an organization.

Dynamic Models for Knowledge-Driven Organizations presents a widespread collection of research on the understanding of the managerial, technical and human issues associated with the use of knowledge in organizations while bearing in mind the design, development, and maintenance of useful knowledge management systems. This reference is essential for the tools and information needed to effectively implement knowledge management systems and would benefit researchers and practitioners alike.

Topics Covered:

- Critical Success Factors
- Enterprise Networks
- Grounded Theory
- Knowledge Management
- Knowledge Sharing
- Knowledge Systems
- Technology-Mediated Collaboration

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.

Murray E. Jennex is an associate professor at San Diego State University, Editor-in-Chief of the *International Journal of Knowledge Management*, Editor-in-Chief of IGI Global book series, Co-Editor in Chief of the *International Journal of Information Systems for Crisis Response and Management*, and *President of the Foundation for Knowledge Management (LLC)*. Dr. Jennex specializes in knowledge management, system analysis and design, IS security, e-commerce, and organizational effectiveness. Dr. Jennex serves as the Knowledge Management Systems Track Co-Chair at the Hawaii International Conference on System Sciences. He is the author of over 100 journal articles, book chapters, and conference proceedings on knowledge management, end user computing, international information systems, organizational memory systems, ecommerce, security, and software outsourcing. He holds a BA in chemistry and physics from William Jewell College, a MBA and a MS in software engineering from National University, and a MS in telecommunications management and a PhD in information systems from the Claremont Graduate University. Dr. Jennex is also a registered professional mechanical engineer in the state of California and a Certified Information Systems Security Professional (CISSP).
