Tariq Ashraf (University of Delhi, India)
and Puja Anand Gulati (University of Delhi, India)

In the past decade, technology and the digital age has continued to shape our society. As corporations and universities continue to transition into the digital world, developments of the same type of information retrieval have modernized library resources and services.

Design, Development, and Management of Resources for Digital Library Services offers a global perspective on the development and design of digital library and highlights its benefits over a traditional library. This reference source brings together research and ideas on the different facets of a digital library.

Topics Covered:

- Censorship
- Content and Workflow Management
- Digital Library Development
- Information Literacy
- Metadata Creation and Management
- Open Access
- Social Networking
- Weblogs and Libraries

Market: This premier publication is essential for all academic and research library reference collections.

It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.

Tariq Ashraf is M.A. in Political Science from Hindu College, University of Delhi and holds PG and Doctoral degrees in Library & Information Science from Department of Library & Information Science, University of Delhi. Currently with University of Delhi, he has earlier worked at institutions like Indian Institute of Management, Lucknow, and Centre For Policy Research, New Delhi. A regular contributor to LIS literature and research, Dr. Ashraf is twice winner of international paper contest held by American Society for Information Science and Technology (ASIST). He is a council member, Gerson Lehrman Group, USA for a wide ranging LIS consulting assignments.
