Public Sector Transformation Processes and Internet Public Procurement: Decision Support Systems

Natasa Pomazalová

(University of Defence in the Czech Republic, Czech Republic)

While many social, economic, and political changes have occurred recently in internet public procurement and its decision support systems, there is still a lot of opportunity for improvement.

Public Sector Transformation Processes and Internet Public Procurement: Decision Support Systems brings together research on different perspectives from academics and practitioners on the methods, theories, and practices involved in the growth and expansion of decision support systems as it relates to the public sector transformation process and internet public procurement.

Topics Covered:

- Decision Support Systems
- E-Procurement
- Network Infrastructures
- Public Procurement
- Public Sector Transformation
- Technology Advancements
- Web Technologies
