ICTs have the potential to make a huge impact on developing countries. Not only can ICTs be used to integrate rural communities into wider economic and social development, but digital technologies can also be used to enhance and preserve the knowledge and culture of rural communities.

Cases on Developing Countries and ICT Integration: Rural Community Development pools together experts' experiences on ICT integration in rural community development within the context of developing countries. The technology they used is described, analyzed, and synthesized in order to offer solutions for successful application. This premier reference source is ideal for community development workers, social workers, scholars, researchers, and policy makers interested in ICTs for community development.

Topics Covered:

- Applications of ICTs
- Economic Empowerment and Poverty Alleviation
- Human Capital through ICTs
- ICT Policies
- Information Societies
- Literacy and ICTs
- Small Scale Enterprises
- Social and Community Informatics
- Tourism and ICTs
- Tribal Digital Villages

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.
