Multimedia Services and Streaming for Mobile Devices: Challenges and Innovations

ISBN: 9781613501443; © 2012; 350 pp.

Print: US \$190.00 | Perpetual: US \$285.00 | Print + Perpetual: US \$380.00

Alvaro Suarez Sarmiento (Universidad de las Palmas de Gran Canaria, Spain) and Elsa Macias Lopez (Universidad de las Palmas de Gran Canaria, Spain)

Multimedia services facilitate the real-time processing and communication of images, audio, and text. The convergence of computer communication and telecommunication has redefined current multimedia services, encouraging the creation of multimedia interfaces for videoconferencing, VoIP, instant messaging, and gaming.

Multimedia Services and Streaming for Mobile Devices: Challenges and Innovations provides tutorials, surveys, case descriptions, and original contributions that address current research findings and business success cases in multimedia services and streaming for mobile devices. This publication is useful to researchers, developers, engineers, and innovators working in multimedia services or mobile devices, as well as academics, industry professionals, and researchers who aspire to learn about recent progress and future trends in the field.

Topics Covered:

- Adaptive and Customizable Streaming
- Commercial Media Delivery Platforms
- Compressing and Streaming Real-Time Video
- Media Resource Adaptation
- Mobile Lecture Streaming
- Mobile WiMAX
- Multimedia Streaming in Wireless Networks
- P2P Video Streaming
- QoS of Video Transmissions

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.

Alvaro Suarez Sarmiento is a Full Professor of Telecommunications at the University of Las Palmas de Gran Canaria, Spain. He is a Member of the Experts Commission of research of the University of Las Palmas de Gran Canaria from 1999-2002. In 1990, he started working in systolic computing in the Technical University of Catalonia. Then, he turned his attention to network computing and heterogeneous computing in 1994 when he returned to the University of Las Palmas de Gran Canaria where he founded the Concurrency and Architecture Group (GAC). His research interests are in parallel and heterogeneous distributed computing, infrastructure wireless networks for collaborative computing, and collaborative frameworks. His current research efforts have focused on the management of wireless channel disconnections to prevent abrupt endings of applications. Professor Suarez teaches telecommunications at the beginning, advanced, and graduate levels. He advises graduate thesis in the area of wireless communications and parallel and heterogeneous distributed computing. He also gives lectures at European universities. The Multimedia and Ubiquitous Wireless Access Networks and Services conference was lectured at University Ca' Foscari di Venezia (May 2005).

Publishing Academic Excellence
at the Pace of Technology Since 1988

Chapter 1

The Challenges of Compressing and Streaming Real Time Video Originating from Mobile Devices

Uti Ngozi V. (University of Cincinnati, USA)
Fox Richard (Northern Kentucky University, USA)

Chapter 2

Multimedia Services for Mobile WiMAX:

Fleury Martin (University of Essex, United Kingdom)
Al-Majeed Salah S. (University of Essex, United Kingdom)
Al-Jobouri Laith (University of Essex, United Kingdom)
Ghanbari Mohammed (University of Essex, United Kingdom)

Chapter 3

High-Speed Cable Replacement for Multimedia Streaming in Wireless Personal and Local Area Networks

Chou Chun-Ting (National Taiwan University, Taiwan)

Chapter 4

Codec Adaptation for Wireless Multimedia Streaming

Yeh Ping-Cheng (National Taiwan University, Taiwan)
Hsieh Hung-Yun (National Taiwan University, Taiwan)
Wu Zhong-Han (National Taiwan University, Taiwan)
Lee Yen-Chi (National Taiwan University, Taiwan)
Chiang Chun-Cheng (National Taiwan University, Taiwan)
Ou Antonio (National Taiwan University, Taiwan)

Chapter 5

Reviewing HTTP and RTSP Work in Two Actual Commercial Media Delivery Platforms for Multimedia Services and Mobile Devices

Zimmermann Martin (University of Applied Sciences Offenburg,)
Seilheimer Gilbert (University of Applied Sciences Offenburg, Germany)

Chapter 6

Multimedia Services Offer Mixing Teko and Internet Assets

Galindo Luis Angel (Telefonica, Spain)
Salvachúa Joaquín (Polytechnic University of Madrid, Spain)

Chapter 7

Media Resource Adaptation for Multimedia Services and Streaming Media for Mobile Telephones

Szkaliczki Tibor (Hungarian Academy of Sciences, Hungary)

Chapter 8

High-Performance Solutions for Adaptive and Customizable Streaming of Interactive Content to Mobile Devices

Paravati Gianluca (Politecnico di Torino, Italy)
Lamberti Fabrizio (Politecnico di Torino, Italy)
Sanna Andrea (Politecnico di Torino, Italy)
Celozzi Cesare (Politecnico di Torino, Italy)

Chapter 9

Using MapReduce Framework for Mobile Applications

Dou Adam (University of California, USA)
Kalogeraki Vana (Athens University of Economics and Business, Greece)
Gunopulos Dimitrios (University of Athens, Greece)
Mielikainen Taneli (Nokia Research Center, USA)
Tuulos Ville H. (Nokia Research Center, USA)

Chapter 10

Context-Aware Multimedia Services for Mobile Lecture Streaming

Lucke Ulrike (University of Potsdam, Germany)

Chapter 11

Recent Advances and Challenges in Wireless QoS-Aware Multimedia Streaming Systems

Oliveira Rosinei (Federal University of Pará, Brazil)
Santana Adamo L. (Federal University of Pará, Brazil)
Costa João C. W. A. (Federal University of Pará, Brazil)
Frances Carlos R. L. (Federal University of Pará, Brazil)
Aguiar Elisangela (Federal University of Pará, Brazil)
Bezerra Paulo (Federal University of Pará, Brazil)
Costa Allan (Federal University of Pará, Brazil)
Cerqueira Eduardo (Federal University of Pará, Brazil)
Abelém Antônio J. G. (Federal University of Pará, Brazil)

Chapter 12

Routing and Coding Enhancements to Improve QoS of Video Transmissions in Future Ad Hoc Networks

Guerri Juan C. (UPV, Spain)
Arce Pau (UPV, Spain)
Acelas Patricia (UPV, Spain)
Castellanos Wilder E. (UPV, Spain)
Fraile Francisco (UPV, Spain)

Chapter 13

Resilient P2P Video Streaming over an Urban VANET

Qadri Nadia N. (University of Essex, United Kingdom)
Fleury Martin (University of Essex, United Kingdom)
Ghanbari Mohammed (University of Essex, United Kingdom)

Chapter 14

Multi-Platform Video Streaming Implementation on Mobile Terminals

Elsa Macías (ULPGC, Spain)
Suarez Alvaro (ULPGC, Spain)
Espino Francisco (ULPGC, Spain)
