Handbook of Research on Business Social Networking: Organizational, Managerial, and Technological Dimensions

Maria Manuela Cruz-Cunha (Polytechnic Institute of Cavado and Ave, Portugal), Patricia Gonçalves (Polytechnic Institute of Cávado and Ave, Portugal), Nuno Lopes (Polytechnic Institute of Cávado and Ave, Portugal), Eva Maria Miranda (Polytechnic Institute of Cávado and Ave, Portugal) and Goran D. Putnik (University of Minho, Portugal)

Given the widespread, frequent use of social networks as a means for people to communicate and share their interests, it comes as no surprise that they have become an important tool for businesses and business networking.

The Handbook of Research on Business Social Networking: Organizational, Managerial, and Technological Dimensions investigates the beginning of social networks and provides perspectives on how they can enhance business. This two-volume reference discusses the main issues, challenges, opportunities, and trends related to the range of new developments and applications in business social networking. Social networks and their integration in businesses are addressed using technological, organizational, managerial, and social perspectives with the aim of disseminating current developments, case studies, new integrated approaches, and practical solutions and applications.

Topics Covered:

- Corporate Strategy and Business Networks
- Knowledge Management and Organizational Learning
- Multi-Agent Systems
- Scientific Social Networking
- Social Network and Online Marketing
- Social Networks and Computer Mediated Communication
- Social Networks in Management
- Socially Networked Knowledge Workers
- Virtual Enterprising
- Web 2.0 for Collaborative Product Development

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.
